Introducing Your
Municipal OHS Data Dashboard

Transform Your Data into Meaningful Insights

The **Municipal OHS Data Dashboard** is a FREE secure, interactive platform that brings members access and insights to their own Occupational Health & Safety (OHS) data, providing clear, data-driven answers to your most important health and safety questions.

Your One-Stop Centre for Safety Intelligence

From high-level overviews to specific details, this dashboard empowers your organization at every level of decision-making.

Performance Snapshots

Get an at-a-glance "Employer Report Card" with Key Performance Indicators (KPIs), Workers' Compensation Board (WCB) premium rates, and your current COR status.

Benchmarking & Trends

Compare your OHS performance to industry peers and track your progress over time with dynamic charts and graphs.

Deep-Dive Analysis

Identify opportunities by analyzing WCB claims to understand trends in injury types, occupations, and root causes, or review detailed results from your COR audits.

Access *Your* Key Data to Enhance *Your* Workplace Safety

Use the Municipal OHS Data Dashboard as your Safety CAMP:

1. **Communicate** your safety story using clear, compelling data.
2. **Assess** your overall safety performance and financial standing with the WCB.
3. **Monitor** the effectiveness of your safety programs and initiatives over time.
4. **Proactively manage** your COR certification by understanding audit performance in detail.

Play a Key Role in Enhancing Safety Excellence
Join the Phase 1 2026 Implementation

At this time, AMHSA is seeking members to participate in the Phase 1 launch of this program, where your important feedback on the platform, user experience, and usefulness will be incorporated into Phase 2 revisions in 2027.

Interested? Reach out and our team will be in touch!
